-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Applicants' response, filed 15 November 2004, has been fully considered. Rejections and/or objections not reiterated from previous office actions are hereby withdrawn. The following rejections and/or objections are either reiterated or newly applied. They constitute the complete set presently being applied to the instant application.

Claims 2, 5-8, 10-12, 14, 16-18, 23, 24, and 85-93 are currently pending.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2, 5-8, 10-12, 14, 16-18, 23, 24, and 85-93 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 recites "wherein the maximum effective mass is based on the gender and height of the patient". It is unclear if Applicant intends mass to incorporate gender and height in addition to other factors in effective mass calculation or if Applicant intends mass to be based solely on height and gender, as indicated by the claim language. Clarification is requested.

Claims 14 and 16 recite "wherein each time point is background corrected". It is unclear if the time points are corrected or if the data is corrected as time points are collected. Clarification is requested.

Claim independent claim 87 recites "determining activity hours (AH) for the radiopharmaceutical or radiopharmaceutical analog by reference to Equation I". It is unclear

Art Unit: 1631

what is intended by “reference to Equation I”. Does Applicant intend to use Equation I or merely a derivative of Equation I? It is noted that claim 87, as written, does not seem to require that the Equation actually be used in the method. Clarification is requested.

Claim 87 recites “determining a residence time of an administered tracer dose”. What tracer dose is intended? Does Applicant intend the tracer dose from the third step of the method or some other tracer dose? Clarification is requested.

Claim 91 recites “an ^{131}I -labeled anti-B1 antibody radiopharmaceutical composition ready for administration to a patient, comprising a predetermined amount of said ^{131}I -labeled anti-B1 antibody”. What is an “amount”? This is a relative term. Contrary to Applicant’s argument, this is not a product-by-process claim, as the steps of the method do not produce a product. Clarification is requested.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claim 91 is rejected under 35 U.S.C. 102(b) as being anticipated by Kaminski et al. (Journal of Clinical Oncology (1996) Vol. 14, pages 1974-1981).

Claim 91 is drawn to a ^{131}I -labeled anti-B1 antibody radiopharmaceutical. Kaminski et al. disclose a ^{131}I -labeled anti-B1 antibody radiopharmaceutical used in B-cell lymphoma radiotherapy (see abstract, lines 9-22).

Inquiries

Papers related to this application may be submitted to Technical Center 1600 by facsimile transmission. Papers should be faxed to Technical Center 1600 via the PTO Fax Center. The faxing of such papers must conform with the notices published in the Official Gazette, 1096 OG 30 (November 15, 1988), 1156 OG 61 (November 16, 1993), and 1157 OG 94 (December 28, 1993) (See 37 CFR §-1.6(d)). The Central Fax Center Number is (571) 273-8300.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Lori A. Clow, Ph.D., whose telephone number is (571) 272-0715. The examiner can normally be reached on Monday-Friday from 10 am to 6:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ardin Marschel, Ph.D., can be reached on (571) 272-0718.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to (571) 272-0547.

Patent applicants with problems or questions regarding electronic images that can be viewed in the Patent Application Information Retrieval system (PAIR) can now contact the USPTO's Patent Electronic Business Center (Patent EBC) for assistance. Representatives are available to answer your questions daily from 6 am to midnight (EST). The toll free number is (866) 217-9197. When calling please have your application serial or patent number, the type of document you are having an image problem with, the number of pages and the specific nature of the problem. The Patent Electronic Business Center will notify applicants of the resolution of the problem within 5-7 business days. Applicants can also check PAIR to confirm that the problem has been corrected. The USPTO's Patent Electronic Business Center is a complete service center supporting all patent business on the Internet. The USPTO's PAIR system provides Internet-based access to patent application status and history information. It also enables applicants to view the scanned images of their own application file folder(s) as well as general patent information available to the public.
